Authors Contributor.docx;

Dear Editor in Chief TJNPR
Prof. Abiodun Falodun, Ph.D

Here i send the possible reviewer to review my manuscript. Hope my manuscript can review as soon as possible.

Name: Muhammad Hilmi Aftoni

Affiliation : Widya Mandala University

Scope: Phytochemistry

Email address: m.h.afthoni@gmail.com

Country : Indonesia

Name: Eva Monica

Affiliation : Ma Chung University

Scope: Cancer

Email address: eva.monica@machung.ac.id

Country : Indonesia

Name: Habibah A Wahab

Affiliation : Univeristy Sains Malaysia

Scope: Pharmacognosy

Email address: habibah.abdulwahab@gmail.com

Country : Malaysia

I also send the list and email address of my co-author. I attach the word file.

Best regards
Rollando

Subject: Re: Submit Manuscript_Rollando

Dear Dr Rollando,

Thank you for submitting your original article for publication in the Tropical Journal of Natural Product Research (www.tjnpr.org) <https://www.scopus.com/sourceid/21100933230> SCOPUS Q3

Kindly send the names, affiliation and VALID email addresses of three potential reviewers, two from your country and the other from outside your country. The email addresses of the co-authors are also needed, stating also their roles in the study.

The peer-review process will commence immediately, and the Editorial Team will get back to you as soon as the review is completed.

Title: *Sterculia foetida* Leaf Fraction Against Matrix Metalloproteinase-9 Protein and 4T1 Breast Cancer

Cells: *In-Vitro* and *In-Silico* Study

Dear Prof. Abiodun Falodun, PhD

I am herewith submitting the manuscript entitled “*Sterculia Foetida* Leaf Fraction Against Matrix Metalloproteinase-9 Protein and 4T1 Breast Cancer Cells: In Vitro and In Silico Study” for publication in

Tropical Journal of Natural Product Research. The manuscript discusses about the *Sterculia foetida* is a plant that has anti-cancer potential. The most active fraction of *S. foetida* as anti-breast cancer agent with hemopexin-like domain of MMP-9 (PEX9) as the selective protein target and 4T1 cells line as metastatic breast cancer cell. The molecular docking was also conducted to gain the insight mechanism of compounds in active fraction.

The manuscript has not been currently submitted for review to any other journal and will not be submitted elsewhere before a decision is made by this journal. We look forward for your positive response.
