Dear Dr Rollando,

Thank you for submitting your original manuscript to the Tropical Journal of Natural Product Research (www.tjnpr.org) <https://www.scopus.com/sourceid/21100933230> SCOPUS ^{Q4}, published by the University of Benin and Natural Product Research Group.

The peer-review process will commence immediately, as the manuscript will be passed to an editor for initial assessment as soon as possible.

Title: ***In Vitro* Cytotoxic Potential of Sterculia Quadrifida Leaves Against Human Breast**

Cancer Cell Lines

Dear Prof. **Abiodun** Falodun, PhD

I am herewith submitting the manuscript entitled "In Vitro Cytotoxic Potential of Sterculia Quadrifida Leaves Against Human Breast Cancer Cell Lines ." for publication in Tropical Journal of Natural Product Research.

In this paper, we report on Sterculia quadrifida is a plant that has anti-cancer potential. In this research we first report the anti-cancer activity from leaves. This is significant because there is little information about the exploration of medicinal plants of Sterculia quadrifida. The paper should be of interest to readers in the areas of Pharmacognosy, phytochemistry, and breast cancer research.

The manuscript has not been currently submitted for review to any other journal and will not be submitted elsewhere before a decision is made by this journal. We look forward for your positive response.

Kind regards
