To: Dr. apt. Rollando , S.Farm, M.Sc. <ro.llando@machung.ac.id>

Thank you for your submission to the Tropical Journal of Natural Product Research (www.tjnpr.org)
<https://www.scopus.com/sourceid/21100933230> SCOPUS , published by the University of Benin and Natural Product Research Group.

The peer-review process will commence immediately, as the manuscript will be passed to an editor for initial assessment as soon as possible.

Title: ***BIOACTIVE HYDROXYLATED C28 STEROID FROM THE LEAF OF LAPORTEA DECUMANA (ROXB.) WEDD.***

Dear Prof. **Abiodun** Falodun, PhD

I am herewith submitting the manuscript entitled "BIOACTIVE HYDROXYLATED C28 STEROID FROM THE LEAF OF LAPORTEA DECUMANA (ROXB.) WEDD." for publication in Tropical Journal of Natural Product Research.

The manuscript discusses about the finding of steroid compound from laportea decumana leaves. We first found the steroid C28 compound from this plant. The compound have high antioxidant, anticancer dan antibacterial activity.

The manuscript has not been currently submitted for review to any other journal and will not be submitted elsewhere before a decision is made by this journal. We look forward for your positive response.

Kind regards

Subject: Review Comments

Review Comments (BIOACTIVE HYDROXYLATED C28 STEROID FROM THE LEAF OF LAPORTEA DECUMANA (ROXB.) WEDD)

Editorial comments to authors

Abstract: begin with a brief background and include a well stated aim in this section.

For in-text referencing, the superscript numerals should come after a comma or full-stop.

List of references should follow journal adopted format. See journal website at <http://www.tjnpr.org/guideforauthors.aspx#> for details. Abbreviate all Journal names.

All comments/corrections made by reviewers should be completely addressed, point by point, and make appropriate changes in the manuscript, or provide a suitable rebuttal to any specific request for change that has not been made.

All corrections/changes made in the manuscript should be highlighted in yellow colour when submitting the manuscript in the revised form on or before 30th June 2022

The authors should carefully revise and correct the manuscript taking into consideration the comments of all the reviewers. **50% of the references cited should be between 2016-2020. The revised and corrected manuscript should be subjected to plagiarism checker (17% allowed in TJNPR) and English language editing. Evidence of the checks should be attached when submitting the revised/corrected manuscript.**

During submission of the revised manuscript include another file labelled "**Responses to reviewers' comments**" (a matrix) clearly showing your responses to each of the issues raised by the reviewers; mention the section, page and paragraph/lines where and how the changes/corrections have been made.

Strictly adhere to the author guidelines. Make sure that all the facts and information provided in the manuscript are correct. Check grammar, spelling, spacing, other information and facts including scientific names, formulae, symbols, equations, etc.

Ensure that all the references are correctly cited in the text and list. Verify all the references from their original sources. Confirm correctness of the citation info such as authors' names (surnames, initials, spelling, arrangements, etc), year, title, journal, volume, pages, punctuation, etc. The numbers and units must be presented according to the journal style. Use clearly distinguishable patterns for the illustrations/figures (e.g., graphs and charts) such that they should be legible even for black and white printing or when reduced in size.

Proofread the whole document after effecting all the corrections. The revised version should be approved by all the co-authors before submitting it.

A manuscript not complying with these and other instructions will not be processed and may be rejected.

Please find the attached review comments for your revisions.

Best regards
